DRAFT 1988 RCRA ANNUAL MONITORING REPORT

Attn: K. J. Schneider

Please find enclosed two copies of the draft 1988 RCRA Annual Ground Water Monitoring Report for your review. Not all of the CADD drawings have been prepared for this draft due to startup difficulties in the subcontractor's CADD system. However, at least one potentiometric surface map for each of the regulated units has been completed so that the digitized maps can be reviewed for adequacy of detail. Other maps have been hand drawn on the digitized base maps for technical review and reference in reviewing the text.

In order to meet our deliverable requirements to Colorado Department of Health (CDH) by March 1, 1989, we are planning to have a review meeting on February 20, 1989 in the RCRA Conference Room in Building 250 (Windsite) at 9:30 A.M. to discuss comments. Should you have any additional questions, please contact Michael Arndt at extension 4294.
